| | | |
|---|---|---|
| HTML | JavaScript | NPM |
| CSS | AJAX | NodeJS |
| Sass | RESTful API's | ExpressJS |
| Bootstrap | JSON | MongoDB |
| UI/UX | OOP | ReactJS |
| WordPress | MySQL | AngularJS |

## EDUCATION

**2022 – Current**

### Full Stack Web Development Course
**HackerU College**
An innovative and practical course focused on Full-Stack web development which provided me with extensive knowledge of new and advanced platforms such as NodeJS, ReactJS, AngularJS, HTML5, CSS3 & SASS, JavaScript, MySQL, MongoDB, RESTful API's and many more. I have developed several projects on my Github profile and at the top of it is a full stack summary project called "business card app".

**Self-learning– Udemy**
In parallel to the HackerU course, I purchased additional courses to further enrich my knowledge on the world of web development.

**2020 – 2018**

### Mechanical engineering (two years without certificate)
**Shamoon College**
Grade point average of 81.
I decided to leave the field behind due to a lack of interest and went on to study programming instead.

**2010 – 2004**

### Eshel HaNasi High School
**A high school diploma**

## WORK EXPERIENCE

**2022 – 2021**

### iStore– Be'er Sheva
**Shift manager, service and sales**
- Managing the shift and the employees in the best possible way while providing customer service.
- Solving computing problems with an IT person at the same time as my job.

**2021 – 2020**

### S&T– Yehud
**Area sales promoter (Area manager)**
- Promoting the company's products through the competitors at the elite cellular companies – Cellcom, Pelephone, Samsung, etc.
- Independently creating and managing my own schedules.

**2018 – 2016**

### Flex– Ofakim
**Machine operator, programming, and production line manager**
- For my first job I worked as a soldering machine operator.
- After about seven months I was promoted to become a programmer on several machines in the factory, building a soldering program for motherboards.
- After about fourteen months, I was promoted to line manager where I managed the staff of the production line, as well as creating work arrangements, reports, and presentations.

## MILITARY SERVICE

**2013 – 2010**   **Computer technician and IT support**

## LANGUAGES

**Hebrew**– Native
**English**– full professional proficiency
